

HINDUSTAN

INSTITUTE OF TECHNOLOGY & SCIENCE
(DEEMED TO BE UNIVERSITY)

$$f(x) = ax^2 + bx + c$$

School of Basic and Applied Sciences Department of Mathematics

Organises

ONE WEEK FACULTY DEVELOPMENT PROGRAM (FDP) ON

**MATHEMATICAL FRONTIERS IN
DATA SCIENCE AND ARTIFICIAL INTELLIGENCE**

(Virtual Mode)

18th - 23rd, May 2026

6.30 PM to 8.30 PM

Google Meet

$$x^2 + y^2 = r^2$$

Resource Persons

Dr. E. Natarajan
Department of Mathematics,
Indian Institute of Space Science and
Technology (IISST), Kerala.

Ms. Komal Lamba
Data Scientist
Cygnat One, Gujarat.

Dr. Manoj Kumar Diwakar,
Department of Statistics
Jawaharlal Nehru University, New Delhi.

Dr. Anindya Goswami
Department of Mathematics,
Indian Institutes of Science Education and
Research, Pune

Dr. P. Varalakshmi
Professor,
Department of Information Science and Technology,
Anna University, Chennai

Dr. P. Rohini
Department of Computer Science & Engineering,
Indian Institute of Information Technology,
Design & Manufacturing (IIITDM), Chennai.

Day 1: Foundation of Data Science & Mathematical Preliminaries

Day 2: Statistical Learning & Optimization Technique

Day 3: Machine Learning & Advanced Mathematical Concepts

Day 4: Deep Learning & Advanced Mathematical Concepts

Day 5: Frontiers, Research Direction & Application

Day 6: Valedictory, Feedback, Q & A Session.

About the FDP

The rapid evolution of Data Science and Artificial Intelligence has transformed academic and research landscapes, demanding not only computational expertise but also a strong mathematical foundation. This Faculty Development Programme (FDP) is designed to equip academicians with a deep, concept-driven understanding of the mathematical principles that power modern AI systems. The programme emphasizes core areas such as linear algebra, probability theory, statistical inference, and optimization techniques, enabling participants to bridge the gap between theory and real-world AI applications. By integrating mathematical rigor with practical insights, this FDP supports educators and researchers in enhancing curriculum design, improving research quality, and fostering interdisciplinary innovation.

Objectives

- To empower academicians with a mathematically grounded understanding of Data Science and AI.
- To strengthen knowledge in key areas such as linear algebra, probability, statistics, and optimization.
- To enable critical analysis and interpretation of AI and machine learning models.
- To facilitate the integration of mathematically driven AI concepts into teaching, research and interdisciplinary applications.

About the University

Hindustan Institute of Technology and Science (HITS), Chennai, established in 1985, is a premier institution recognized as a Deemed to be University by the UGC with Category-II academic autonomy. The institute offers a wide range of Undergraduate, Postgraduate, Diploma, and Doctoral programmes across Engineering, Technology, Architecture, Management, Law, Sciences, and Arts. HITS is part of the renowned Hindustan Group of Institutions and caters to over 15,000 students. Several of its engineering programmes are accredited under the NBA Tier-1 category, and its technical courses are approved by AICTE.

The institution has consistently secured notable national and global rankings, including positions in the NIRF rankings, recognition by QS I-GAUGE for academic digital excellence, and rankings by India Today, Outlook-ICARE, and Times Engineering Survey. It has also performed commendably in Times Higher Education (THE) Impact Rankings, reflecting its commitment to sustainable development goals. With state-of-the-art infrastructure, Centres of Excellence, global collaborations, funded research projects from agencies like DST, DRDO, and NRB, and a strong focus on innovation and research, HITS provides a vibrant academic ecosystem that nurtures excellence and global competence. Guided by the vision of its Founder-Chairman, Late Dr. K.C.G. Verghese, the institution is committed to shaping future-ready professionals with strong academic and ethical foundations.

About the Department

The Department of Mathematics at Hindustan Institute of Technology & Science, established in 1985, is a vibrant academic and research hub offering innovative programmes such as B.Sc. Mathematics & Data Science, M.Sc. Mathematics (Integrated) and Ph.D. in Mathematics, integrating core mathematics with emerging areas like AI and data science. The department has a strong research profile with numerous high-quality publications, patents, and funded projects, alongside active international collaborations and expert lectures. It fosters holistic student development through clubs, Olympiads, industrial visits, and outreach initiatives across multiple states. Faculty members continuously upgrade their expertise through FDPs and NPTEL certifications, ensuring modern teaching practices. With notable achievements including prestigious research awards, funded fellowships, and consistent academic performance, the department stands out for its interdisciplinary approach, outcome-based education, global exposure, and commitment to developing analytical and data-driven professionals.

Who can Register?

Professionals from Academia and Industry, Research Scholars, PG and UG Students

Contact Us:

Mobile: +91 95662 72329 / +91 97900 88346

E-Mail: maths@hindustanuniv.ac.in

Last Date of Registration: 16.05.2026
